> SATURDAY, JUNE 12, 1880 EDITORIAL NOTES.

A BILL has passed the Senate authoriz-ing the sale of the Detroit arsenal.

THE delegates chosen by the Demo-eratic State Convention of South Carolina are said to be unanimous for Bayard for

THE National debt was diminished nearly sixteen millions of dollars during the month of May. As long as the Republicans are at the helm this reduction will steadily continue.

THE census machinery is now in full working order, all the clerical force is busily employed, and Gen. Walker promises that the work will soon be finished. The delay in getting into operation is to be attributed to the action of the Senate, in reference to the confirmation of supervisors.

THE affairs in Russia and China bid fair to be still further complicated. There is now a prospect that a defensive and offensive alliance will be formed between China and Japan, and it is rumored that their combined fleets will be placed under the command of Ameri-can officers.

THE reaction of the speculative feeling in iron has brought to grief several heavy importers of New York. They bought largely when iron was booming and the recent heavy decline in the prices carried them down. One of the firms have liabilities amounting to \$2,500,000, another over \$2,000,000. 500,000, another over \$2,000,000.

race takes place on the 15th of November, on the Thames, from Putney to Mortlake, for £200 a side and the championship of the world, and the sportsman's trophy.

Col. Shaw has posted £50 on behalf of Hanlan. Everything has been amicably a fail to express their sentiments and place themselves on record. They have a place themselves on record. They have a

HORACE MAYNARD, of Tennessee, was confirmed last week by the Senate as eye on the vast European immigration

THE Chicago Inter Ocean of Sunday congratulates the delegates to the na-tional Republican convention on their

THE 16,000 Methodist churches of this country owe debts aggregating \$7,000.

On The Bishops in their report to the general conference, severely censure the trustees who mortgage the church property in order to defray current expenses.

The Pittsburg (Penn.) Commercial has a report that the Hon. S. B. Mason who was the Greenback-Labor candidate for Governor of their State two years ago, has abandoned that party and became a Republican. He was a Democrat before he joined the Greenbackers.

Ington was born.

A SITE has at last been given for the which has done so much good and comes to us so highly recommended. Try it. It may save you heavy doctors' bills.

A Blook on the Liver, its diseases and their treatment sent free. Including treatises upon Liver Complaints, Torpid tiver, Jaundice, Billiousness, Headache, Constipation, Dyspepsia, Malaria, etc. Address Dr. Sanford, 162 Broadway, New York City. N. Y.

According to the New York City. N. Y.

According to the New York Times there is a peculiar and and unaccountable plague of locust on Long Island. The Times says: In many places they are so thick as to bend the bushes to the ground, and the highways are lined with the old wings and body cases cast off by them. The woods appear to be full of them, and the peculiar roaring sound made by their wings can be heard for a great distance. They strip off everything green as they go, leaving the trees and bushes bare.

THE American rifle team sailed for Ireland Thursday of last week. Whether they will consent to shoot in England is uncertain; probably they will not, as the English challenge was issued as a catch, so that an all-British team could say that so that an all-British team could say that it was only a private match if beaten, but claim an international victory if they won; whereas the American team was selected solely to shoot in the Irish match, and not in any private match at Wimbledon. If the English desire an international match, an American team can be selected to meet them.

A COMPLIMENTARY banquet was given at the Russell House, Detroit, to Minister Angell, Friday night of last week prior to his departure on his mission to China. He left Detroit last Monday for California, where he would spend a few weeks posting himself from a California standpoint on the Chinese question.

The river and harbor bill passed by the Senate Wednesday of last week will have to go through the House before it become an act; so that its final shape is still in doubt, owing to the many amendments with which it has been loaded and the possibility of disagreements between the two houses.

A COLORED man presiding over a National Political convention is significant. A COLORED man presiding over a National political convention is significant of the progress that has been made within the past few years in respect to the rights of humanity. Friday of last week, Senator Bruce, of Mississippi, was temporarily called to preside at the Republican convention in Chicago, by Chairman Hoar.

A TOBONTO Globe special from London says the Hanlan-Tricket articles were duly signed Friday of last week. The race takes place on the 15th of November,

The southern Democrats of late seem afraid to express their sentiments and place themselves on record. They have a wholesale dread of the criticism of the Northern trade sufficient to cause, besides the Reading company, the failure of a large concern near Chattanoga employing 600 hands. The late boom, as has been before intimated, was largely the result of speculation. To-day the price of iron is so low in this country, that there is no margin for importation. However, the whole situation is far more healthy than it would have been had the high prices continued.

AMERICA needs a large increase of her shipping. A modest calculation it is said, puts \$90,000,000 as the sum America has paid to foreigners in the last 51 years, for carrying American products across the seas. Last year we thus paid out \$75,000,000. England, as a freight earrier, earns about \$200,000,000 per year—all clear gain. Time was when we did about 90 per cent. of our own business in this way ourselves.

The New York Herald says three warships the Vandalia, the Alliance and the Tennessee—are ordered to Canadian waters. It is quite unlikely that with three ships our government proposes to coerce Canada and England into adopt—for the propose of the sound of the press that there is no margin to the propose of the sound of the press that there is no margin for importation. However, the whole situation is far more bealthy than it would have been had the high prices continued.

AMERICA needs a large increase of her shipping. A modest calculation it is said, puts \$90,000,000 as the sum America has paid to foreigners in the sound \$75,000,000. England, as a freight earlier, earns about \$200,000,000 per year—all clear gain. Time was when we did about 90 per cent. of our own business in this way ourselves.

The New York Herald says three warships the Vandalia, the Alliance and the Tennessee—are ordered to Canadian waters. It is quite unlikely that with three ships our government proposes to cooree Canada and England into adopt—the propose to the propose of

Tennessee—are ordered to Canadian waters. It is quite unlikely that with three ships our government proposes to coerce Canada and England into adopting the American view of the Fortune Bay case, but it is possible the state department, on the principle that an ounce of prevention is worth a pound of cure proposes to have some of our national police on the ground of the late disturbance, in order to discourage new appeals to violence.

THE HOUSE passed a resolution to adjourn June 10, but Senator Davis, of West Virginia, said he thought the Senate would amend to make it June 15. The rabid free-traders are much increased with the Democrats for agreeing to adjourn so early, when, they declare, they might, by persistence, do some tariff tinkering. This action is interpreted as a victory for the protectionists. The reformers had hoped to do a little this session, and had even talked of a scheme to accomplish it during the absence of the Republicans at Chicago.

In the vicinity of Leadville, Colorade, In the vicinity of Leadville, Color them to dictate terms. Second, the Democratic of accomplish it during the absence of the Republicans at Chicago.

Is the vicinity of Leadville, Colorado, recently, there were apparent premonitions of a volcanic outbreak. Rumbling noises and a tremor of the earth were noticed, and a chasm four feet wide and seventy-five feet long has made its apparance on the side of the guiden near the Eurydice Tunnel. The great volcano of Jorullo rose in a few weeks on the sutrace of Mexico in the last century, destroying hundreds of farms, and occasioning much loss of property and tiling it is to be hoped that Colorado will have no such unpleasant experience, yet an attraction to tourists.

In the Democratic National Convention four years ago Wm. L. Webber of Michigan offered a resolution, which was adopted, declaring "that the so-called two-thirds rule be abolished as unwise and unnecessary," and that each state be requested to instruct its delegates, in 180, to vote whether the two-thirds rule shall be continued in force or abolished. On Wednesday of last week the Saginaw County Democratic State Convention again elected Wm. L. Webber of the Michigan offered a resolution in favor of the maintenance of the two-thirds rule shall be continued in force or abolished. On Wednesday of last week the Saginaw County Democratic State Convention again elected Wm. L. Webber of the maintenance of the two-thirds rule shall be continued in force or abolished. On Wednesday of last week the Saginaw County Democratic convention again elected Wm. L. Webber delegate to the Democratic State Convention and passed a resolution in favor of the maintenance of the two-thirds rule, in order to beat Tilden, whose nomination another resolution pronounced unwise and impolitic. Thus Democratic principles wobble.

to America, so very much of which comes to the the United States and so very little to Canada. The Teronte Globe tries to console itself with the opinion that, "after the best land of the western and tional Republican convention on their opportunity to attend church that day, and hear some of the distinguished divines of that city. We fear, however, that the thoughts of the most of delegates would be more on the approaching contest than to the words that might fall from the preacher's lips.

While the Republican congressmen were absent at Chicago the Democratis in Congress entered largely into the mounment business. They passed a bill to expend a large sum for a monument at Yorktown, Virginia; \$41,000 for a monument at Yorktown, Virginia; \$41,000 for a monument to mark the site of the house where Washington was born.

To console itself with the opinion that, "after the best land of the western and northwestern states are taken up the flow of agricultural labor and capital to the States will receive a great check." Possibly; but how long will that take? And will the flow even then be diverted to Canada? Naturally, it is a poor country, and what is worse, it is the policy of the present government, by piling taxes on the people for the execution of extravagant public works, to make it still poorer. The New York Bulletin well says that "the only oungration to be expected under those circumstances is a movement from the country, not to the progress at this moment.

Onr drug stores are now supplied with

The Great Pain Reliever. Brown's Household Panacea, which as wrought such wonders, a purely vegetable preparation.
